

# Uninstall V-Ray

This page provides information on uninstalling V-Ray for Maya.

## Overview

---

The V-Ray installer automatically uninstalls any previous versions before installing a newer version. If you need to manually uninstall V-Ray, please make sure that Maya or V-Ray components are not being used. For silent uninstallation, see the [Silent Install and Uninstall](#) page.

## Uninstalling V-Ray

---

The Uninstallation process varies depending on the Operating System, see the appropriate tab for your system.
